

REMARKS/ARGUMENTS

Claims 1-21 have been allowed. Prosecution as to the merits has been closed under Ex parte Quayle. The drawings were objected to because reference characters "12" and "16" had both been used to designate "receptacles" on page 6 of the specification, as filed. The last paragraph on page 5, line 23 of the specification has been amended to correct this error by changing reference character "12" to reference character "16" on page 6, line 2 of the specification. The drawings were also objected to on the basis that reference numeral "25" in Figure 4 was allegedly not described in the specification. Reference numeral "25" is indeed described in the specification on page 7, line 7 of the specification, as filed, as "space 25". The above objections to the drawings should be withdrawn. No new matter has been added to the specification. A Notice of Allowance is respectfully requested.

Respectfully submitted,

KELLY LOWRY & KELLEY, LLP.
